Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

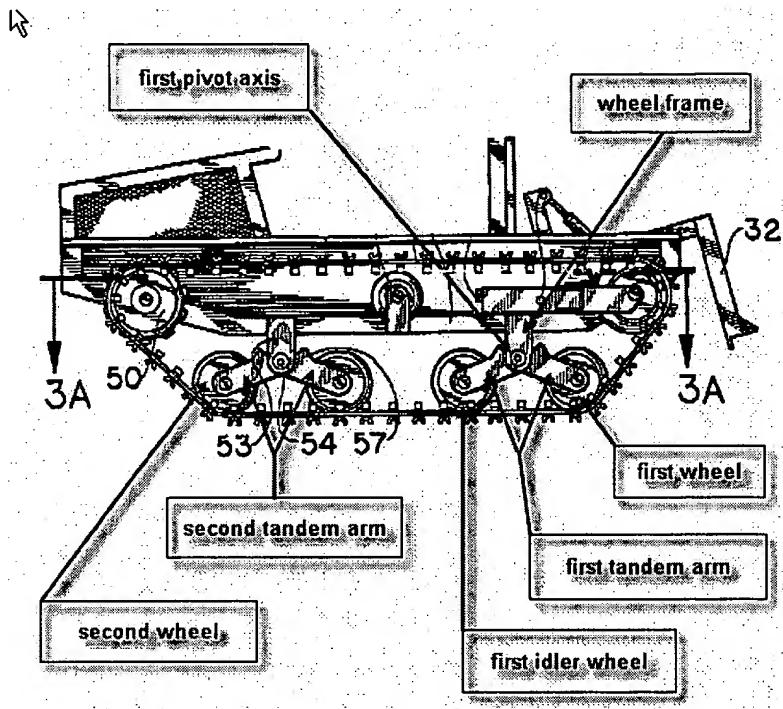

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 & 12 are rejected under 35 U.S.C. 102(e) as being anticipated by Lykken et al. (6,318,484).

Lykken et al. discloses a track assembly having all of applicant's claimed structure including a frame (including members 194 & 196 shown in figure 6) for adjustably spacing first and second wheels (164 & 162), a top tandem arm 102, a bottom tandem arm 193, a front idler wheel 188, a second idler wheel 186, and a belt 144 as shown in figures 3 & 4. It is noted that first wheel 164 is mounted to bottom tandem arm 193, which is in turn mounted to a top portion of top tandem arm 102.

Claims 6-8 are rejected under 35 U.S.C. 102(e) as being anticipated by Gignac (6,125,956).

Gignac discloses a track assembly having all of applicant's claimed structure including a wheel frame, a first tandem arm, a wheel frame, a first wheel, a first idler wheel, a second tandem arm and a second wheel as identified in the modified figure below. Gignac further discloses a hitch member 105.

Allowable Subject Matter

Claims 9-11, 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 2 is allowed.

Response to Arguments

Applicant's arguments filed 8/31/06 have been fully considered but they are not persuasive. Applicant argues that Lykken et al does not disclose the frame structure identified in claims 1 & 12. There appeared to be confusion as to how Lykken et al., was interpreted, especially regarding the first and second wheels and the idler wheels. It is the examiner's position that Lykken et al. meets the claimed limitations as set forth more clearly above. Specifically, first and second wheels are considered wheels 164 &

162 respectively, with the first and second idler wheels being considered wheels 188 & 186 respectively as set forth in the rejection above. Concerning claims 6-8, applicant argues that claim 6 has been amended to define over Gignac. The examiner does not agree, and has more specifically identified the claimed structure, including the wheel frame, in the modified figure inserted above.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Victor Batson whose telephone number is (571) 272-6987. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Will can be reached on (571) 272-6998. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
